1. The amendment filed on December 10, 2007 has been entered.
2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

In Claim 16, line 11, change "steel" to - - steering - -.

3. Claims 4 and 6-20 are allowed.
4. The following is an examiner's statement of reasons for allowance: the closest prior art Miyako et al. (US Patent Publication 2002/0033321 A1) does not teach or suggest the limitations, such as, (a) "wherein an interspace (5), which is filled by the steering wheel foam material (4), is present between the steering wheel skeleton (1, 2) and the holding part (3)" (reference characters added) recited in Claim 4 and shown in FIG. 2; (b) "the holding part first portion (3a) has a U-shaped configuration of substantially constant cross-sectional thickness adjacent the steering wheel skeleton (1,2)" (reference characters added) in Claim 6; and "a generally flat surface of the holding part first portion (31) that engages against the steering wheel skeleton (1, 2) with the remainder of the holding part first portion (3a) engaged by the foam material (4) surrounding the steering wheel skeleton (1, 2) to hold the generally flat surface against the steering wheel skeleton (1, 2)" (reference characters added) in Claim 16.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. The interlineations or cancellations made in the specification or amendments to the claims could lead to confusion and mistake during the issue and printing processes. Accordingly, the portion of the specification or claims as identified below is required to be rewritten before passing the case to issue. See 37 CFR 1.125 and MPEP § 608.01(q).

Paragraphs [0020]-[0029] of the specification, Claims 4 and 6-20, and abstract are required to be rewritten.

6. The drawings were received on November 26, 2007. These drawings are accepted by the Examiner.

The formal drawings filed on November 26, 2007 has been accepted because a review of the prosecution history shows that the reference character "20" was described in amended paragraph [0024] in the amendment filed on August 1, 2005. Moreover, the cancellation of Claim 3 renders the objection to the drawings in the Office action on August 9, 2007 to be moot.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Vinh T. Luong whose telephone number is 571-272-7109. The examiner can normally be reached on Monday - Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Richard Ridley can be reached on 571-272-6917. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
